

XPERTX HYBRID KENO SYSTEM

A COMPLETE KENO SYSTEM FOR ALTERNATIVE GAMING VENUES

An efficient, space-saving Keno system that includes everything you need to get your Keno game up and running. This compact system is perfect for locations with weight and size limitations or for those who just want to keep it simple — minimal setup and training needed.

XPERTX HYBRID SYSTEM INCLUDES:

- Windows based Keno System server
- TouchScreen writer terminals with:
 - Simplified input screens and customer side display
 - Thermal ticket printer
 - Barcode scanner for easy transaction processing
 - Mark Sense "lotto" style wager readers
 - Mag card readers for player tracking and/or writer authentication

Hybrid Writer Terminal

Optional Customer Display Screen

- Random Number Generator
- Vortex HD video display system — shows game results and progressive meters
- Full reporting and accounting functions with statistical data
- Ethernet or serial communications
- Handles multiple progressives
- Upgradeable to our Pro Keno System

ADVANCED FEATURES

The Hybrid System also includes many advanced, game-enhancing features found in our Pro System.

- Auto-timed game call
- Multi-race tickets
- Point and cash Keno tournaments
- Customer side display advertising
- SurPrize Package — awards random prizes
- Built-in customer tracking
