

VORTEX HD

KENO DISPLAY & ADVERTISING FEATURING GAME ANNOUNCEMENT & HD CAPABILITY

The Vortex HD Video Display System displays and announces Keno results throughout the casino and hotel rooms using your in-house AV system and includes our all new HD capability. Our expanded Vortex HD+ system turns each Keno display into an extraordinary in-house marketing tool. It uses the time between Keno draws to display progressive meters, advertisements, animations and even videos.

Sample Keno Vortex HD Display

KENO DISPLAY AS UNIQUE AS YOUR CASINO

Vortex HD MegaKeno Advertisement

Each Vortex HD Keno display is unique. We use your casino logos and colors to create Keno display screens that reflect your style and identify the game and deliver a dynamic video representation of your Keno game results with a scrolling center message.

VORTEX HD+

Stretch your marketing dollars between games with the Vortex HD+ system. Run casino advertisements and animations with Vortex HD+ to keep players informed of upcoming events, post tournament results, and promote in-house specials. Originally sold to display Keno results only, Vortex HD+ has become so popular as a cost-effective marketing tool, we now offer it as a stand-alone package for marketing and advertising only.
